

## BIRTH CONTROL TRANSFER PATIENTS

There are three ways to obtain Hormonal Contraception from Campus Health Services:

1. Your private physician can call in your birth control pill prescription to the Campus Health Pharmacy at (520) 621-6516.
2. You may make an appointment in Women's Health to have an annual exam and pap smear. The provider can order a prescription for birth control for you.
3. You may make a consultation appointment in Women's Health and bring the following items:
  - ❖ Copy of last pap smear (within the last 9 months)
  - ❖ Copy of last gynecology exam
  - ❖ Documentation of the date of your last birth control injection or pill prescription

A provider here is then able to prescribe birth control to last until your annual pap smear is due again.

The records can be faxed to:

Attention: Women's Health Clinic  
(520) 626-6156

Or mailed to:

University of Arizona  
Campus Health Service  
Attention: Women's Health  
P.O. Box 210063  
Tucson, AZ. 85721-0063

**If you request that your records be faxed or mailed to us, verify that your records have arrived BEFORE your appointment by calling 621-6542.**
