

4 May 2009

Dear UA Campus Health Service,

I would like to take this opportunity to formally congratulate the UA Campus Health Service for their over 90 years of dedicated service to The University of Arizona. Since their inception in 1919, UA Campus Health service has been a pioneer in providing quality health care for all those associated at The University of Arizona and it is my great privilege to acknowledge their accomplishments and celebrate their long standing tradition of success.

Not only has the UA Campus Health Service made a commitment to the health, wellness and safety, but they have made it priority to build strong relationships across the university community. Specifically I would like to commend UA Campus Health Service for their passionate pursuit of being intimately involved with the Associated Students of The University of Arizona's (ASUA) Student Health Advisory Committee. I want to express my appreciation for your support of our health programming as we have been able to greatly expand the breath and scope of our services.

As a physiology major with aspirations of attending medical school, I personally recognize how essential the programs and services you provide are to the entire university community.

Congratulations, as you reflect upon all of your achievements and milestones over the past 90 years. I wish you only the best on your continued track of excellence for another 90 plus years to come.

Sincerely,

Chris M. Nagata
Student Body President
Associated Students of The University of Arizona
