

# RECOMMENDED VACCINES

## *for Incoming Students*

VACCINE	# OF DOSES	NOTES
<b>COVID-19</b>	TBD	CDC guidance for COVID-19 will be available soon and the vaccine will be available at Campus Health.
<b>Hepatitis A</b>	2-dose series, given over a 6-month period	This is a lifetime vaccination and recommended for travel.
<b>Hepatitis B</b>	3-dose series, given over a 6-month period	For most, this is considered a lifetime vaccination. A 2-dose series is available for those who qualify.
<b>HPV</b>	2 or 3-dose series, given over a 6-month period	Considered a lifetime vaccination which protects against the human papillomaviruses that cause most cervical cancers, anal cancer, mouth and throat cancer, and genital warts.
<b>Influenza</b>	1-dose, given seasonally	Seasonal vaccine and should be updated yearly.
<b>Meningococcal</b> (MenABCWY)	2 doses, given 6 months apart	Considered effective protection against meningitis caused by serogroups A, B, C, W, & Y, and might need to be updated for travel into endemic areas. If you have received the MenACWY or MenB vaccine, consult with your medical provider.
<b>MMR*</b> (Measles/Mumps/Rubella)	2-dose series	2-MMRs are considered a lifetime vaccination. Measles is on the rise nationally.
<b>Polio</b>	3 to 4-dose series	For most, this is considered a lifetime vaccination. In some instances, a booster may be recommended for travel.
<b>Td OR Tdap</b> (Tetanus/Diphtheria; Tetanuss/Diphtheria/Acellular Pertussis)	Childhood series then 1-dose booster every 10 years	A Tdap is recommended when traveling within the last 10 years.
<b>Varicella</b> (Chicken Pox)	2-dose series	For those who did not have chicken pox as a child. It is considered a lifetime vaccination.

Each vaccination has risks and possible complications. Questions? Contact the Campus Health Immunization Nurse at (520) 621-2292, your healthcare provider, or the CDC at [www.cdc.gov](http://www.cdc.gov).
